I highly recommend Greg Danas of G&G Firearms Experts. I've hired and consulted with Greg on a number of criminal defense cases throughout the years and he's always provided great education and analysis on my cases. These cases involve possession of firearms and allegations of shooting firearms.

I recently hired Greg on a firearm possession case out of the Boston Juvenile Court. The Boston Police Firearm Lab made several mistakes in its analysis of the firearm but the ADA assigned to the case was still seeking to convict my client. Greg was able to examine the firearm in his own lab and conduct his own thorough research on its functionality and its date of manufacture. Greg wrote a detailed report about the firearm and once I provided that to the government and listed Greg as a trial witness, the prosecutor agreed to dismiss the case prior to the trial.

I'm certain that without Greg's report and his willingness to testify on my client's behalf, the ADA would've continue to prosecute my client through trial. I highly recommend hiring Greg to assist any case that involves firearms

Sincerely,
